## **Part- or Full-time Licensed Clinical Providers (Child/Adult)**

### **Position(s) in Evidence-Informed Practice Group**

Peninsula Behavioral Health (PBH; [www.penbh.com](http://www.penbh.com)) is a unique private practice collaborative, where our mission is to create a clinician culture allowing for the best client care. We fundamentally believe that the best care depends on allowing clinicians autonomy and flexibility to practice the way they want. We are dedicated to providing high-quality, evidence-informed care. We are based in the bay area with satellite offices across california, and open to clinicians who want to work remotely.

PBH strongly values diversity and cultural humility. We are committed to equal opportunity in all policies and practices. Our mission includes a strong commitment to delivering care that is aware of the many roles that diversity plays in our services.

We are currently seeking licensed clinical psychologist(s) or masters level clinicians with strong evidence informed training to join our growing team. Candidates with expertise in working with various forms of diversity and/or representing backgrounds typically underrepresented in the mental health field are encouraged to apply. We see a diverse range of clients, and are in-network with Aetna Stanford Health Care Alliance.

Candidates must be:

- Licensed or license-eligible clinical psychologists or master's level clinicians in the state of California.
- Demonstrate excellence in evidence-informed practice.

Positions are highly flexible with regard to work schedule and caseload size, ranging from two evenings per week to full time work. Interested candidates should be willing to make a 12-month commitment.

Working at PBH means:

- Highly competitive compensation including healthcare and retirement benefits for eligible employees. We are proud to be the highest paying private practice group in the Bay Area.
- Autonomy to practice according to your own clinical judgment, set your own hours, and determine the patients you want to see.
- A steady flow of patient referrals, weekly case consultation with supportive colleagues across many specialty areas, and mentorship.
- Continuing education stipend.
- We are also committed to building a thriving culture via professional and social events.

PBH seeks to hire both adult and child therapists, locally and virtually:

### ***Adult Therapists***

PBH is seeking clinicians with expertise in providing evidence-informed individual and group interventions to adults. PBH treats a broad range of psychological conditions, and positions are open to both generalists and specialists. Additionally, PBH houses specialty sub-clinics with distinct consultation teams, including trauma recovery, eating disorders, couples and families, and women's wellness. The opportunity to also practice in these specialty clinics may be of particular interest to candidates with these areas of expertise. Individuals with expertise in couples therapy, eating disorder treatment, and sleep disorders are especially encouraged to apply.

### ***Child Therapists***

PBH is seeking child therapists to provide evidence-informed individual, group, and family interventions to children/adolescents and their parents. Areas of clinical expertise may include mood and anxiety disorders, ADHD and behavioral disorders, eating disorders, and/or learning and developmental disorders. Opportunities to provide psychological assessment and to assume administrative responsibilities may be available to interested candidates.

### ***Virtual Care***

We offer services via videoconference. Candidates who wish to provide virtual therapy from other locations while being part of an evidence-informed practice are welcome to apply.

Applicants are invited to send a cover letter and CV to [careers@penbh.com](mailto:careers@penbh.com).
